SOMETHING ABOUT MARY....

Hey There! Thanks for visiting my website! I'm a self-taught photographer from Lancaster WI. I specialize in senior, family, and wedding photography. I'm also a Renal Dietitian and work as a consultant for Grand River Medical Group.

My photography editing style is clean, warm, and vibrant. My sessions are relaxed, fun and we take lots of time getting the images you want. My mission is to provide overflowing image galleries. One of my greatest gifts as a photographer is putting people at ease. I focus on the "art" of photography rather than on the "business" of photography. I respect your budget. No packages or sales pressure. I'm proud to own the most advanced professional equipment and editing software available to photographers.

The best way to contact me is through FB messenger or shoot me a text at 608-732-3380.
